Description

Up for auction is a **lot of two (2)** 2016 silver Buffalo rounds, each containing **1 troy ounce of .999 fine silver**. These coins feature the classic Native American obverse and American bison reverse, modeled after James Earle Fraser's famous Buffalo Nickel design.

Same photo is used for each lot. Some coins may have small toning spots and some do not.

Details

- **Year:** 2016
- **Metal Content:** 1 troy ounce each
- **Purity:** .999 fine silver
- **Total Weight:** 2 troy ounces
- **Condition:** Brilliant Uncirculated (BU)

Condition Notes

Both rounds display bright, mirror-like luster and sharp strike details. Edges are clean and reeded. Minimal handling marks are visible; one round shows a **small toning spot** on the obverse (see photos). These pieces have not been circulated and have been stored in protective capsules since issue.

Value Factors

- The high silver purity (.999 fine) ensures full bullion value.
- Brilliant Uncirculated condition enhances collector desirability.
- Minor toning or surface spots are normal for silver and do not affect intrinsic value.
- Current market value typically tracks the spot price of silver plus a small premium for minting and condition.

Perfect for stacking, collecting, or gifting—these rounds combine iconic design with pure bullion value.
